When the traditional hamburger met the slider, which is a low-cost, thinly layered and easy-to-eat mini version, the world was introduced to a whole different kind of sandwich—appropriately dubbed the mini-burger. But what's tiny in size has proved quite the opposite in taste. Today, you'd be hard-pressed to find an appetizer or main course menu without some version of the bite-size meat patty between two buns. Below are the best of the best for this cute culinary creation.

Pulled Pork

Maggie Nguyen is a self-taught home cook specializing in Vietnamese cuisine who runs a blog called Maggie's Meals. She and her four sisters all live in New York City and meet once a month to celebrate all things cooking—a love passed along by their mother. These super-tender slow-cooked pulled pork burgers, topped with a shredded-carrot slaw, are a favorite meal for the meet-ups. *Photo courtesy of [Micah Beree](#) via [MaggiesMeals.com](#).*
